

The Colton

1400+ Sq. Ft.

CVE introduces “The Colton.” This exciting ranch home is packed with features and amenities!

We start with an open floor plan, that is bright and spacious. This layout is very versatile. It feels warm and cozy, yet open and spacious entertaining your family and friends.

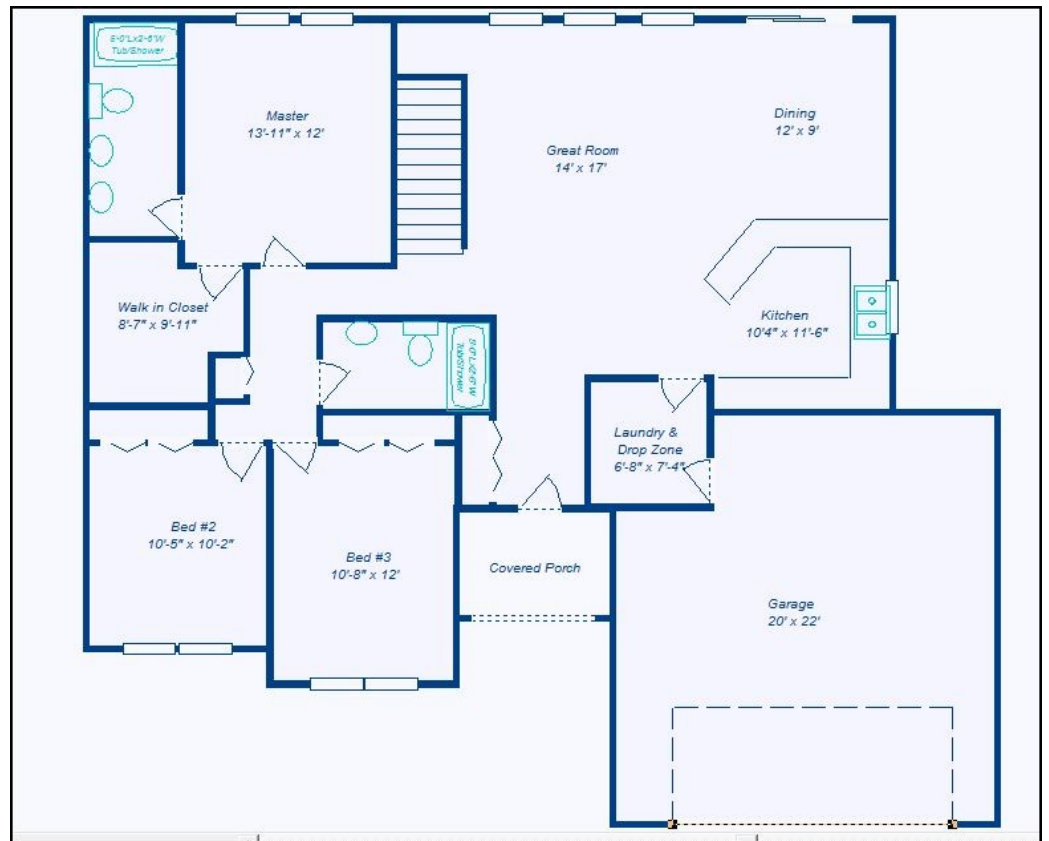

The deluxe kitchen has plenty of cabinets and wonderful counter space that includes a huge breakfast bar.

The spacious great room and open dining room area offers the perfect space that every family needs. Place your entertainment center on the stairwell wall and enjoy it from anywhere in that area.

The master suite features a huge walk in closet and private bath. Two other bedrooms and another full bath complete this great home.

Other features include; a large foyer, first floor laundry / mud room with drop zone.

As with all CVE homes we build “The Colton” with pride and use only time honored methods and the finest materials and craftsmanship. Come see our models and see why CVE will build you a better home...period!
